EDUCATION

University of Massachusetts Lowell 05/2027
Bachelor of Science, Computer Science, Minor in Mathematics - GPA: 3.9 Lowell, MA

Bunker Hill Community College 12/2023
Associate of Science, Computer Science - GPA: 3.9 Charlestown, MA

Relevant Coursework: Data Structures, Object-Oriented Programming, SQL, Linear Algebra, Calculus 3, Software Development Cycle, Assembly Programming Language, Logic Design, Artificial Intelligence, Machine Learning.

TECHNICAL SKILLS

Programming Languages: Python, Java, C++, C#, JavaScript, TypeScript, SQL, Swift, Assembly, HTML, CSS

Frameworks & Libraries: React, Django, Bootstrap, PyTorch

Tools & Platforms: Git, Docker, Jenkins, Kubernetes, Postman, Microsoft Azure

Databases: PostgreSQL, MySQL, SpacetimeDB

Concepts & Methodologies: RESTful APIs, CI/CD, Agile/SCRUM, Design Patterns, SDLC

EXPERIENCE

Spectra | spectradev.tech 01/2026 – Present
Software Engineer Remote

- Shipped full-stack production apps in React, TypeScript, Next.js, and Three.js for fintech and real estate clients.
- Developed automation scripts using Claude, Cursor, and ChatGPT; integrated MCP connectors and IDE plugins.
- Managed GitHub repositories, branching, pull requests, and code reviews; coordinated development workflows and delivery through Slack.

Trinity Life Sciences 06/2026 – 08/2026
Information Technology Intern Waltham, MA

- Resolved 40+ Tier 2 ServiceNow tickets involving hardware, software, and RBAC across Microsoft 365, GitHub, Copilot, and Perplexity.
- Deployed 30+ Entra ID-joined Windows endpoints via Autopilot/Intune with BIOS and compliance validation.
- Administered IAM across Microsoft 365 Admin Center and Entra ID; supported PowerShell dynamic groups and authored a zero-touch Workday → Entra ID → Intune proposal.

TechServices – University of Massachusetts Lowell 02/2025 – 05/2026
Student Support Analyst Lowell, MA

- Provide support for 18,000+ students and 1,100+ faculty/staff, resolving account, hardware, and software issues.
- Partner with network/security engineers to troubleshoot infrastructure and manage Wi-Fi access for 100+ users.
- Re-image and deploy 50+ desktops across departments using standardized configurations.

TASC – Bunker Hill Community College 02/2023 – 12/2024
Computer Science Tutor Boston, MA

- Tutored 60+ students in Java, C++, and Data Structures through debugging and concept reinforcement.
- Supported 100+ successful project completions by guiding students through design, implementation, and testing.
- Developed supplemental materials and practice problems to address common programming challenges.

Mayor's Office of Housing, City of Boston 06/2023 – 08/2023
IT Technical Support Intern Boston, MA

- Deployed 50+ workstations, replacing legacy desktops with laptops, monitors, docks on fresh Windows installs.
- Cleaned database by identifying and removing 400+ outdated records to improve system performance.
- Provided end-user support for Windows, macOS, mobile devices, and productivity software across the office.

PROJECTS

Full-Stack Real Estate Platform for Anthony Kadelliu | anthonykadelliu.com 06/2025

- Built and deployed a real estate platform serving hundreds of users with first-page Google search rankings.
- Developed Python ETL pipeline processing 50,000+ MLS listings, eliminating \$1,200/year broker API costs.
- Implemented CI/CD pipeline with GitHub Actions for automated deployments and 3-hour data refresh cycles.
